

Figure 8. Fully-funded seismic experiments as of 12/2001

Blue stars & inset map: American (NSF-Nyblade) & French (Paris-VI) broadband seismometers. 500 x 1500 km. Recording 2001-2002.

Blue triangles: 25 broadband stations (UK-Leeds). 250 x 250 km. Recording 10/01-2/03.

Pink circles: 50 broadband stations (UK-RHUL). 100x100 km. Recording 10/02-2/03.

Heavy black line with purple dots: crustal refraction profile, 450 instruments and 8 shots (UK-Leicester (with support from State of Texas to UTEP)). 400 km. Recording 1/03.

Diamond in Addis Ababa is permanent station.
